Paint & Coatings

About Us

About Company

We are the manufacturing company specializing in the development and production of colorants for the paints and coatings industry, as well as decorative finishes. Renowned chemists and technologists from Hungary and Italy have crafted the formulations for our products. Our production exclusively utilizes high-quality raw materials sourced from reputable global suppliers.

Our factories are located in the Central Asian region and equipped with the most modern equipment. We are committed to producing high-quality products and fostering long-term partnerships with our collaborators.

Some facts about us...

- A Hungarian company exporting products to the EU and CIS countries.
- We specialize in manufacturing colorants for decorative paints and coatings and have our own research center.
- We provide a wide range of color solutions and serve as your expert in trendy colors and solutions.
- Our large production and logistics center covers over 6 000 m².
- 26 years in the paint and coating business.

Our Colorants

ChromoArt colorants are universal colorants for tinting at retail points.

Our colorants are designed for volumetric dosing (computerized tinting) and can be used for tinting decorative paints and decorative coatings, both water-based and organic solvent-based.

They can be applied to tint silicone coating materials. This series of colorants is suitable for tinting paints for both exterior and interior use.

Advantages

- Direct replacement of your existing colorants.
- No waste, no cleaning, preservation of existing database.
- VOC free universal patented polymeric colorants.
- Keeps the paint properties.
- Colorants of the same colors and concentrations that can be added on top of existing colorants.

"The 'ChromoArt Tint' color matching system comprises base paint, colorants, tinting machine, color-matching software (including color management and selection) and mixer."

Our colorants are suitable for widely used recognized color palettes such as Monicolor Nova, RAL Effect, RAL Classic, British Standard, NCS, and SSG.

We offer a broad spectrum of color shades, and their variety continues to expand.
